Dear sir/madam_____

I am Yohannes Ayana, Electrical Engineering graduate (Industrial Control stream). I graduated from Bahir Dar University in Bachelor of Science with 3.33 over all CGPA.

I had a very incredible profiles in my primary, secondary and preparatory schools. I took 1st rank in class and compound for many consecutive years. I scored the highest average mark in ministry (regional exam of grade 8) of all the city administration of Dangila by scoring 87% in 2010.

I had an internship experience in Tsehay Paints Factory for four months during February to June in 2018 and I get some experiences of industry life and office works. During my time in Tsehay Paints Factory I have designed an industrial automation which automates the whole company and I received recognition and appreciation certificates from the company, the faculty and Bahir Dar institute of Technology. My internship project has been selected a model in Ethiopia and I presented this work in front of Professors and Doctors in 6th annual University Tivet and Industry Linkage (UTIL) national conference held in Kombolcha back in April 2019.

As soon as I graduated I got a job and I worked in Burie Industry Park specifically named Richland Biochemical production plc. I have worked there for more than 10 months. After that I moved to Bahir Dar and I worked as Electrician in Raval steel manufacturing company. Now I work remotely as a freelancer designing systems and developing different software and apps.

Please review my CV for additional details regarding my expertise. I look forward to hear back from you.

Thank you for your time and consideration.

Sincerely,

Yohannes Ayana

Subject: Letter of recommendation

I have known Yohannes Ayana since 2017 as my student. I had provided the course **Introduction to Instrumentation**. I am chair holder of Control & Instrumentation in Faculty of Electrical and Computer Engineering; this was the best opportunity to know the applicant well. He has done remarkably well in his course work. He has excellent aptitude for project. He has excellent written and verbal expressions. He is a team player and plays his role well. He always shares his knowledge with others. He distinguished himself being independent, creative and intelligent.

I have found the applicant is dedicated, well disciplined, and industrious person. He is very friendly, sociable, cooperative and can work as team. He has good communication skills and fluent speaker of English language.

I am very confident that he would carry out all the responsibilities and duties entrusted on him effectively. His further education and real world work experience will be useful asset for the society. I have no hesitation to recommend him on his capability for any further **studies / work**.

If you need any additional information, please don't hesitate to contact me.

I wish him all success.
